**Municipality of Thames Centre
ACTION REQUESTED – SECOND NOTICE
Regarding Upper Queen Street
Storm Sewer Upgrade and Road Urbanization Design**

March 13, 2024

Dear Property Owner,

We appreciate your continued cooperation and contribution to the ongoing development of our community. As part of the Municipality of Thames Centre's efforts to gather information for the preliminary urbanized design of Upper Queen Street, we initiated a survey early 2024 to gather your insights and address any concerns regarding the proposed upgrades.

However, it has come to our attention that we have not received survey submissions from all properties. Your feedback is crucial in shaping the design process, and we want to ensure that every property owner has the opportunity to contribute their valuable input.

We kindly request you to take a few moments to fill out the enclosed questionnaire and return it to the Municipal Office at 4305 Hamilton Road, Dorchester, ON, N0L 1G3. Alternatively, you can take a picture or scan the completed survey and email it to Tanner Stanton at tstanton@thamescentre.on.ca.

Your participation in this survey is essential for the successful implementation of the Upper Queen Street Storm Sewer Upgrade and Road Urbanization Design project. We value your input, and all feedback from affected property owners will be carefully considered in the design process.

Thank you for your continued cooperation and contribution to this significant community development.

Sincerely,

A handwritten signature in black ink, appearing to read "Jarrod Craven".

Jarrod Craven
Director of Public Works, Municipality of Thames Centre
