## **NOTICE OF WATER SERVICE DISRUPTION**

Dear Resident and/or Business,

This letter is to advise you of a planned water disruption to your property. Thames Centre will be performing watermain work at the intersection of Hamilton Road, and Oakwood Drive. This work is in connection with the Hamilton Road / Oakwood Drive Sanitary Sewer / Oakwood Place Construction Project. There will be a temporary water service interruption in order to facilitate upgrades and **you will have no water service to your property between 8am and 8pm**. We will make every effort to expedite this work to minimize the length of time the water will be shut down. **Please take appropriate steps to store water for your anticipated needs during the below dates/ times**. There is a map attached to this letter to provide a visual representation of the dates your property will be affected by these water disruptions.

### **Water Disruption Dates:**

- March 16, 2023 (8am-8pm) – Affected houses are shown in orange on the attached map.
- March 20, 2023 (8am- 8pm) – Affected houses are shown in purple on the attached map.

In addition, a blue door hanger reminding users of the disruption will be placed at each affected property 48 hours prior to the shutdown.

Also note that after the water is restored, you may notice some discoloration to your water. We recommend you run your cold water until clear before consumption or doing laundry.

If you have any special water needs or concerns, please contact Kevin Willson, Environmental Services Superintendent, at 519-268-7334 x 745 for assistance.

If you have any questions about the construction work or need assistance during this service interruption, including if you have any special needs or disability that requires a special accommodation, please contact Tanner Stanton, Thames Centre Engineering Technologist, at 519-268-7334 x 235 or [tstanton@thamescentre.on.ca](mailto:tstanton@thamescentre.on.ca).

In case of emergency after 4:30pm and before 7:30am please call Thames Centre Water Department after-hours number at 519-930-8118.

Thank you in advance for your patience and understanding during this construction.
